Dear Sunrise Ag Coop Patrons,

August 2nd, 2021

Feed/Grain news – We are still looking for Oats to use in our feed mill so if you or anyone you might know of has some to sell please call Mike or Jason. Please make sure your grain bank status is up to date. If you have any questions on your balance or usage please give us a call. Grain and feed markets continue to amaze me how they go up and down but if your gut is telling you to lock some in please give Jason a call or email. June 1st we implemented a couple policies to our grain buying and contracting to better protect our Coop and they are very similar or the same to other grain facilities. We will have these policies posted on our website or available at anyone's request. The HEAT is still here for another month or so, so make sure you are prepared with our many products through Purina, Hubbard, Vita Plus, FAF, etc.. To keep your cattle hydrated and products to keep the feed fresh for the cattle. We also have many inoculant options for making your forages this summer to give you higher quality and fresh feeds coming out of those silos and bags for the cattle, to help save you money by not buying as much protein for the cattle. Make sure to keep your cattle waterers cleaned out to give your cattle good clean water and help them out with the heat. Grain markets are still very high and the basis levels until harvest have a good chance to keep it that way so continue to work with those nutritionists to make the best decisions on what to feed your cattle. We are still offering future contracting on Soybean meal, Canola, Amino Plus, and Corn Gluten Pellets. Markets and/or the basis's have still NOT been trending in the right direction for desired contracting but hopefully this can turn in a better direction for us as well but keep in mind it might not! I will try to email prices as much as I can, so if you want updates of these prices Email me @ jason@sunriseagcoop.com and I'll add you to the list or let any of your nutritionists know and they can let me know to add you as well. Check out our website!! You can order feed on there, check out the local cash bids for grain selling, and we have the local DTN news, weather, and markets as well. We are always looking to truck Corn and/or Soybeans for when we go pickup commodities, give us a call if you have any hauling needs 320.468.2852. When ordering feed PLEASE continue to give us a one day notice. It helps the Coop tremendously in many ways.

Most importantly..... Thank you for your business!
