Dear Sunrise Ag Coop Patrons, **August 3rd, 2026**

Feed/Grain/Coop news – As we roll into August, we are once again starting to look at contracting commodities going into the new crop season (Oct 2026 – Sept 2027) The Chicago markets at this time are at average levels in my opinion. The basis levels for clock new crop are decent with potential to be better though as we get closer or into September, but that's just my opinion. If you have annually locked prices in the past, I'd recommend taking a look and if you never have done this before and are interested, please reach out to me with any questions.

Speaking of new crops, we will be harvesting corn and soybeans within the next 2 months. The crops at this moment are no doubt in question if you don't have irrigation! We will see what the weather brings us. Please make sure your grain bank is continuing to be used or if not, it need to be sold by Oct 1st on corn and Sept 1st for oats and soybeans so we can keep it clean and create the much-needed room for others that we are going to most definitely need. Storage for all is going to be a big challenge for us here once again this year, so please let us know if you would like to store any corn and we will accommodate everyone the best we can. Our storage rates are the same this season with Corn and Oats at $0.05/bu/month and Soybeans are $0.06/bu/month. We will keep our 3-month minimum rule in place as well with new crop storage wishes. If you have a current grain bank balance or grain in storage now that will obviously count towards whatever you wish to bring in this fall. Our drying rates for drying corn in 2026 will remain the same as 2025. Our grain policy and qualification information is available in Buckman, if you'd like a copy just ask. Just like every year we will continue to do our best to serve all our patrons the best we can!

We still have $1/bag off on Hydrolac pellets if you take a pallet or more for the August summer heat. We also have other products through multiple feed companies that help your cattle with heat stress, feed freshness, and fly control. One other very important factor for your cattle in the summer and all the time really is your water, we have Ritchie waterers to help supply all your cattle with water. We will continue to do our best to find the best quality and prices on products we can, to provide to our patrons. I will continue to run the commodity contract prices daily or weekly and if you want updates of these prices Email me @ jason@sunriseagcoop.com and I'll add you to the list or let any of your nutritionists know and they can let me know to add you as well. If you are interested in locking in any grain or feed, please let me know. We are offering future contracting on Soybean meal, Canola, Amino Plus, Soy Hull Pellets, NovaMeal, and Corn Gluten Feed (direct to the farm only). You can use our website to order feed, check out the local cash bids for grain selling, and we have the local DTN news, weather, and markets as well. We are always looking to truck Corn and/or Soybeans for when we go pickup commodities, give us a call if you have any hauling needs 320.468.2852. When ordering feed **PLEASE** continue to give us a one-day notice. It helps the Coop tremendously in many ways.
Most importantly…… Thank you for your business!
